

ANNOUNCEMENT

Since June 1, UAPF services are available in 304 branches of Kazpost

For the past year, for the provision of pension services to remote settlements of the country, UAPF JSC and Kazpost JSC have been implementing a joint project to provide services to contributors and beneficiaries of the Fund in the branches of the national postal operator. After training the Kazpost operators, they introduced pension services in settlements where there are no UAPF service centers and now contributors can receive services for which it was previously necessary to go to the nearest large settlements. Last year alone, about 200 branches of the operator of the Kazakh national postal network were connected, and since June 1, this figure exceeded the mark of 300 branches. The list of Kazpost branches with UAPF services in Karaganda and Turkestan regions will be replenished the most: 44 and 19 branches respectively.

Please note that in Kazpost units, residents can receive the following types of services:

- filing applications for changes (additions) to additional details of the contributor (beneficiary) (details of an identity card, phone number, email and postal address);
- signing of an agreement on changing (determining) the method of informing (including access to the services of UAPF JSC in electronic format).

Please note that after connecting new Kazpost branches in June of this year, the presence of the Unified Accumulative Pension Fund in the republic will increase by 142%. Settlements in the Aqmola, Aqtobe, Almaty, Atyrau, East Kazakhstan, Zhambyl, West Kazakhstan, Karagandy, Kyzylorda, Kostanay, Mangystau, Pavlodar, North Kazakhstan and Turkestan regions have already been connected to the provision of services through the operator of the Kazakhstan national postal network. A complete list of all settlements can be found on the site enpf.kz.
