Let us note that after receiving pension assets from the Unified Accumulative Pension Fund, IPM invests them in permitted financial instruments specified in the *Rules for the implementation of investment portfolio management activities*, approved by Resolution of the Board of the National Bank of the Republic of Kazakhstan dated July 1, 2023 No. 62, and provided for in the IPM Investment Declaration. When transferring pension savings to IPM management, the state guarantee is replaced by a guarantee from the management company to ensure a minimum level of return on pension assets. The minimum level of return is calculated based on the weighted average return of pension assets transferred to the management of IPM, operating on the market.

Let us remind you that from July 1, 2023, contributors can transfer into trust management no more than 50% of pension savings at the expense of compulsory pension contributions (CPC) and compulsory occupational pension contributions (COPC), without taking into account the minimum adequacy threshold for investment portfolio managers (IPM), by choosing such a company yourself.
